CAMPAIGN FOR JEWISH RELIEF NEXT WEEK

Madison To Be Asked For \$3,200 To Relieve Sufferings of Starving Millions In Europe.

The campaign for Jewish Relief will be held next week in Madison county instead of this week. It was thought best to postpone the matter one week on account of the Demobilization Conference which is being held in Richmond at this time. This plan is in perfect agreement with the Jewish Relief Headquarters, Louisville. Dr. O. Olin Green, pastor of the First Baptist church, Richmond, has been chosen county chairman to conduct the campaign for funds. Mr. R. E. Turley, cashier of the State Bank and Trust Company, has been chosen treasurer. All contributions will be turned over to him and in due time will be forwarded to the Jewish Relief Headquarters in Louisville.

Dr. Green is now working up his organization in the town and county, preparatory to the big drive next week. Madison county has been asked to contribute \$3,200 toward Kentucky's quota of \$208,000. The whole nation has been asked to give \$35,000,000 for the relief of three million starving Jews in Eastern Europe.

America is the only country who is able to come to the rescue of these starving millions as she is the only country whose resources have not been drained by the terrible war. The people of America have responded to every call in behalf of humanity and they will not fail to do their part in this noble work of relief.

The people of Madison county have always gone "over the top" with every good cause and this time will be no exception for the people are large-hearted, generous and sympathetic. Mr. Sim Weil, of Lexington, who was soliciting for this cause court day has turned in the following contributions to Mr. Turley:

Jerry Noland \$5; T. S. Burnam \$206; J. W. Herndon, \$1; C. F. Chenault, \$5; T. E. Baldwin, Jr., \$4; Wm. Parrish, \$1; Robert Dunn, \$1; T. D. Chenault, \$10; T. M. Oldham, \$1; T. J. Curtis, \$10; I. G. Million, \$2; Alex. Gibbs, \$10; James Noland, \$5; B. M. Igo, \$5; Van Benton, \$5; Mac Coy, \$1; C. C. Coy, \$5; Warfield Bennett, \$5; J. M. Evans, \$5; T. E. Baldwin, \$10; M. F. Arbuckle, \$10; D. P. Black, \$5; J. T. Coy, \$5; M. B. Arbuckle, \$5; Bob Brandenburg, \$5; J. J. Neale, \$5; T. H. Collins, \$5; T. J. Smith, \$5; James B. Parks, \$10; cash, \$5.

Tax Books Not Yet Ready

The impression that the County Board of Supervisors has completed its work and turned the tax books over to the sheriff for collection, as indicated in the Daily Register's article yesterday, is erroneous.

The Supervisors have completed their preliminary work and have placed notices in the hands of Sheriff Whitlock and his efficient deputies, to notify tax payers of the increase placed on their property. There are said to be about 2,500 notices to be served and as the Board has been compelled to do quite a lot of substantial raising of the values to meet the demands of the State Tax Commission of course the property owners will be flocking in droves before the Supervisors to protest.

BOYS APPRECIATE THEIR RESPONSIBILITY

Says Hart Perry, In Ringing Address At Banquet, Opening Demobilization Conference—Big Event

Madison's formal welcome to the soldiers, sailors and aviators who answered their country's call, was given at a banquet, opening the Demobilization Conference Tuesday evening. The parlors of the First Christian church were beautifully and tastefully decorated for the occasion, and the "chow" that the good women furnished their guest could hardly have been excelled. The hundred and fifty or more who sat down to the banquet were delighted with the menu and pleased with the entertainment in every way.

The conference, which is being held here to consider after-war problems, could hardly have been inaugurated more auspiciously. These conferences are being held all over Kentucky, as a sort of co-ordinated movement to enlist the returned soldiers and sailors in the work and problems of every day life. That the boys have come back feeling more deeply their responsibilities of citizenship there is not a doubt. Hart Perry, one of Madison's popular young sons, who saw service on the other side, struck the keynote from the returned soldiers' and sailors' standpoint, when he said that the men have learned by their service and experience, that by standing together they can accomplish things, and that it is now up to them to stand together for the things that mean to make them better citizens and to make their country and their home communities better places in which to live.

Dr. Homer W. Carpenter was toastmaster of the evening. He kept things moving handily, and there was no lost motion at any time during the program. Mayor L. P. Evans gave a cordial welcome to the boys, impressing them with the pride that the folks at home, back behind the line, have taken in their good work. Others who made short addresses, full of pride in the boys and confidence in the future work that lies before them, were: Dr. R. L. Telford, Hon. H. V. McChesney, Rev. M. T. Chandler, Chaplain Stapp, Rev. O. Olin Green. Hart Perry spoke for the boys, and his address, thoughtful and full of earnest purposes, was one of the features of the pleasant evening. Arthur Dupre, the French lad who came to America with John Edward Powell, was introduced, and received much applause. He spoke briefly in his broken English, and told how he had come to America to obtain an education and make something out of himself.

The boys who saw service overseas were asked to rise and were given a round cheer and afterward the boys who had to bear the disappointment of not being sent over, but who were willing and anxious to go. A round of applause was given Mrs. J. P. Simmons, a war mother, who gave five sons to the service, and also to Mrs. Parks, who was in charge of the arrangements of the evening, and who had three sons in the service.

Prof. Smith's orchestra furnished beautiful music for the banqueting, and the Berea quartet sang, and the toastmaster and others all desire through these columns to express their deep appreciation to the committee of ladies from all the churches of Richmond, who had charge of the banquet, and others who contributed toward making the evening a delightful affair in every way.

Opening of Conference.

It was so late when the banquet was concluded that the addresses at the formal opening of the Demobilization Conference, at the Presbyterian church afterward were cut short. Dr. O. O. Green presided and told of the purposes of these meetings at this time, to bring the returning soldier and sailor more intimately into the life of the community to which he returns.

The chief address of the evening was delivered by Hon. H. V. McChesney, who spoke on the "Religious Needs of the Community." The idea that ran through his whole discourse was that enlisting the men more closely in the work of the church and giving them a real work to do. Chaplain Stapp followed and talked interestingly and instructively on the part the soldier can take in civilian life, or what contribution he can make. He declared that the soldier can be depended upon to take hold of any proposition that is entrusted to him; that he has been trained in the school of experience and is ready to do his part in every activity.

MAYOR CALLS MEETING OF CITY COUNCIL

Session Held To Authorize Loan of \$150,000—Oil To Be Put On Main Street.

At a called meeting of the city council this morning at ten o'clock, the committee in charge of the money realized from the sale of the street and sewer bonds, submitted a resolution to the board requesting authority to loan the amount to a Cincinnati firm, to bear interest at 5 per cent. The money is to be loaned through the Fifth Third National Bank, of that city, and the firm borrowing the money will place collateral to the amount of \$157,500, with this bank.

Mayor Evans reported that he was in correspondence with a competent engineer to be employed to handle the work, but had not completed any definite arrangements. However, he said he would possibly be able to report a definite plan within the next week or so.

On recommendation of Councilman C. B. Terrill, the council voted to purchase a car of light oil to be used in oiling the business section, of Main street, using it as far as it would go. A subscription to help defray the expense will be solicited from the parties in this section by City Collector Dykes.

Propagandists At Work In Paris

(By Associated Press)
Paris, April 9—The preliminary treaty will require that Germany pay immediately on her indemnity account twenty-five billion marks in cash and raw material, according to the Echo De Paris. It also declares that the treaty will not leave an uncertain total which Germany is to pay.

Concerning another phase of the situation, The Matin, today says that American propagandists in Paris yesterday used the news that President Wilson had ordered his ship to France to bring him home as a club to intimidate France in the peace conference. It further says they went all over the city saying "If you are not more accommodating our President will return home and you can extricate yourselves from your difficulties by yourself."

Harsh newspaper charges apparently have not affected the American delegation. One member remarked that it was not a bad idea to have the ship at Brest ready for the President's return.

Ignace Paderskaski, the Polish Premier, was summoned to the Council of Four today to present Poland's claims. He will urge the annexation of Danzig, and the coal fields of Teschen, Silesia.

PROHIBITION WILL DEMAND LARGE FORCE

Three Thousand Internal Revenue Agents To Be Appointed To Enforce Dry Law.

(By Associated Press)
Washington, April 9—Three thousand and internal revenue agents will be appointed in specially arranged scenes to enforce prohibition after July 1st, according to plans announced today by the Revenue Bureau.

Nearly 800 inspectors will be trained for work and added to the present force of 2,200 revenue agents already available for police regulation and machinery for the enforcement of the law, will be in working order before the date when absolute prohibition becomes effective.

This force will be distributed among the districts where law violation is threatened to the largest extent and special attention will be paid to the cities where the revenue agents are looking for the most persistent efforts of illegally made whisky.

Revenue agents are also planning to co-operate with local police and will leave the greater part of the work to them wherever it is found the police to be efficient. Without such a plan, a force of even 3,000 would be insufficient.

Although the manufacture of liquor for personal use would be equally illegal with the production for sale, the revenue agents are expecting to devote most of their time to commercial traffic and will leave the enforcement of the law against personal use to the local police.

Dr. McVey Speaks Tonight

The Demobilization Conference will close at the First Christian church tonight with an address by Dr. Franklin McVey, president of Kentucky State University. Two interesting and profitable meetings have been held during the day. Hon. H. V. McChesney spoke this morning at the Baptist church and an interesting open forum participated in by well known citizens was conducted by Dr. Roberts, of Berea. Prof. S. S. Myers is programmed for an address on Community Singing this afternoon and Mr. McChesney will speak again in the afternoon.

A large audience is expected out tonight to hear Dr. McVey, who is one of the big men of the nation in educational circles, and what he says on any subject carries much weight.

Here's Glorious Relief From Itching Skin Diseases

No More Fiery Pain: If You
use the Right Treatment

First of all, get it firmly fixed in your mind that the fiery, burning and itching that causes such pain and torture, is not a local skin disease. True, the skin is the scene of the attack, but the skin is fed by the blood and suffers from any impurity in the blood.

This explains why you have been so disappointed in getting any real, lasting relief from the use of ointments, salves, lotions, or other remedies applied to the surface of the skin.

The millions of tiny disease germs which infest the blood keep up a constant attack on the skin, and are not effected in the least by local treatment. They must be routed from the blood.

These germs which saturate the blood cannot be reached except through the blood. When you treat the local irritations with local applications, you must remember

that the blood is feeding fresh new germs all the time, to keep the skin irritated, and until the supply of germs is cut off entirely, you cannot expect any real relief.

But S. S. S., the fine old blood remedy, goes directly after the germs that infest the blood, and puts them to rout. This remedy is strictly a blood purifier, and there is no disease germ that can withstand its attacks.

This is why S. S. S. gives such satisfactory results in eczema, tetter, boils, pimples, or any other skin eruptions or disorder. By thoroughly purifying the blood, and cleansing it of every trace of disease germ, S. S. S. removes the cause of all skin eruptions, and restores its normal, healthy condition.

If you want relief that is lasting, because it goes to the seat of the trouble, get a bottle of S. S. S. today, and take it as directed, and satisfactory results will follow. It is sold by all drug stores. Special medical advice about your own case can be had without cost, by writing to Chief Medical Adviser, 102 Swift Laboratory, Atlanta, Ga.

Letter From Tom Baxter

Mrs. J. R. Kanatzer has received a letter from her nephew, Tom Baxter, who is in France. It will interest his many friends here as he is a Richmond boy.

Don Juex, France.

Dear Aunt—I will take time to write you a few lines. I arrived here in France just a month ago today. I left the United States October 28th, and was about two weeks on the ocean and enjoyed every day I was on it. I have been to three different camps since I arrived here and have not run up on any of the boys from Madison county yet. There are two companies stationed at this repair shop and Milo Baxter is in the other company. He is the only boy from Madison that I have met with. I have been having a fine time over here—nothing to do but eat and sleep and I am not losing any weight at that rate. When I left the States things did not look any too good. But now it looks like I will be back home by summer and just as soon as I arrive back home I will be down and see you and Uncle Jim.

have not heard a word from anybody since I left Camp Jessup, Ga. It takes a long time to get mail over here. I have been transferred to a new company since I left Camp Jessup, and the officers are a bunch of fine fellows. I am about 75 miles from the front line and don't guess I will ever get up there to see any of the ruin.

I wrote Bailey a letter the other day and I guess he will get it. All the boys that did not get to come over certainly missed seeing a lot of the country. I wouldn't take anything for what I have seen and the experiences I have had, but when I get back to Richmond I am going to stay there till Uncle Sam calls for me again, and he will have to be in a hurry because I will try to have a large family by the time the next war comes off. I don't guess Noley Bonny was ever called to the war. I wanted to come over here all right but I did not like the idea of crossing the big pond, but I will be tickled to death to cross over it once more and then I will be through with the big pond. We are quartered in an old French building that was used at one time as a tenement house for a wire factory. The repair shop we are in is run by an old water wheel which furnished the power to run the machinery. We had a pay day yesterday and we were paid off in French money and it is certainly funny looking paper, but as long as we can buy things with it, it looks good to us. I will close for this time. Give my regards to Noley and wife and to Uncle Jim. With love to you and Uncle Jim from your nephew TOM BAXTER.

Here, There, Everywhere

The aluminum ware sale which was heavily advertised in connection with the Chambers Gas Range display held at Muncy Brothers Saturday, again proves the value of advertising. Muncy Brothers had only 25 of these aluminum sets to be sold and long before the day was spent they were sold and the people clamored for more of these beautiful sets. They will hold another demonstration Thursday and again Saturday, when they will again offer 25 more sets on these two days. These boys are wide awake, and are endeavoring to treat the people of this territory in a fair and courteous manner.

Col. G. B. Swinebroad, the sale wizard of Garrard, had a fair week last week. He only conducted a half a dozen or so sales. They included the Frye sale at Huseonville, which brought \$5,232 cash. The Pettus sale the following day, the farm containing 82½ acres, was sold to J. B. Bryan at \$173 an acre. He also sold for W. E. Moss, the farm that was recently purchased of S. B. Doolin, in Garrard, to Walter Humphreys for \$140 an acre. Mr. Moss paid \$125 an acre for it in January last.

Mr. and Mrs. James H. Wright, Miss Kate Davis Raney and little Julian Wright, motored over from Stanford Sunday to see Dr. G. G. Perry, who is improving nicely, his many friends are glad to know. Mr. Wright is one of the owners of the Stanford Interior Journal, which is right on the verge of becoming a daily. It was issued four times last week and each issue was a hummer, full of news and ads.

SAYS MERITONE HAS SAVED SON'S LIFE

"Had Tried Everything And It Looked As If We'd Lose Him," Father Says.

"We all feel mighty good toward this medicine Meritone down at our house because we think it saved our boy's life," said J. D. Kidd, of 137 Beaumont avenue, Knoxville, Tenn.

"His system was all run down and he was weak and nervous and he had been that way all his life. He'd get so nervous and excited that he could not sleep. He had indigestion and stomach trouble so bad that he could not eat enough to make him grow right.

Tried Everything
"I gave him all kinds of medicine and did everything for him I could but nothing did him any good and it began to look like we were going to lose him."

"Our boy has been taking Meritone for some time now and we think it has saved his life. He can eat anything now and what's more he eats about everything that he can get his hands on. His stomach is in fine condition and he doesn't give a bit of trouble."

"He has gained strength and has a good color now."

"The former nervous condition has left also and he sleeps as sound as the baby now and doesn't jump in his sleep like he did before."

Meritone has no superior as a tonic and strengthener. It is also highly recommended for ailing conditions of the stomach, liver or kidneys, or for catarrh, rheumatism, sleeplessness, or lack of appetite.

Meritone is sold in Richmond by H. L. Perry & Son.

The People Who Work With Swift & Company

Big Business is usually pictured in the public mind as a huge, soulless machine. As a matter of fact, it is just a collection of human beings like you.

Without boasting and simply to give the public an idea of the human side of Swift & Company, we publish the following facts:

The lowest rate of wages paid to men has been increased voluntarily and by arbitration 167 per cent in the past three years; the wages of all packing-house labor have been increased an average of 125 per cent.

There is an Employees' Benefit Association (voluntary) providing disability and death benefits for a small weekly payment. Sick allowances are granted in times of illness, and pensions for disability and old age are provided without expense to the employee.

Under a two year time payment plan 4,000 employees have become shareholders in Swift & Company.

Company physicians attend employees needing their help at the plant and at home, without charge.

More than 1,500 of the 7,500 men who left to join the army and navy have returned to their jobs, and jobs are waiting for the others as soon as they return.

At the general office in Chicago, every boy is given an hour's schooling daily on company time, such work being accredited by the high school authorities in securing a two year commercial course diploma.

A summer home is maintained at Fish Lake, Indiana, near Chicago, where women plant employees may spend their vacations, without cost.

Swift & Company is co-operating with other employers to improve living conditions around the stock yards.

More and more thought and attention are being given to the opportunity and responsibilities presented in a big industry to improve working conditions and to raise living standards.

These are beginnings of a broad, constructive program, details of which are now being worked out by the Employees' Relations Committee of Swift & Company.

School Trustees Ask More Pay For Teachers

At a meeting of the county school trustees held recently, it was definitely decided to make an effort to secure an increase in the pay for the county teachers.

Feeling that the increased cost of living has made it necessary to grant an increase in the scale now paid, the trustee of each school district will make an active canvass of his district and solicit voluntary subscriptions from every one to raise a fund to augment the state fund. The county recently lost two of its most capable teachers on account of the small pay, both resigning to accept positions elsewhere at increased salaries, and feeling that in order to be able to secure more able teachers, the trustees are making this canvass for funds.

The teachers are being paid at that state allows now, but with this voluntary subscription, it is hoped to raise enough funds to not only increase the scale now paid, but to be able to secure competent and efficient teachers. The county board has approved this plan, and it is hoped that every one interested will make a donation to this worthy cause. The work has already commenced and Mr. R. R. Wells, trustee at Doyleville, reports the following subscriptions: R. R. Wells, \$15; R. C. Hill, \$10; Sam Crawford, \$10; Goff Tracy, \$5; Sterling Parks, \$2.50; Fred Wells, \$5; Tom Wooley, \$1; Cal White, \$4; Clarence Wells, \$2.

The Madison county colored teachers met in the auditorium of the colored high school Monday to consider plans for a course in agriculture. Prof. J. S. Hathaway, principal of the school, and Superintendent Edwards were present. A course was decided upon and a day for opening the class will be announced in these columns later.

Walking Horses In Demand

Howard Vanarsdall, a prominent horseman of Mercer county, bought a fine walking horse here Monday from Wills Rogers, of Paint Lick. The price was not given, but it understood to have been a "little rise" of \$300. The animal was a six-year-old bay gelding and a good one. Mr. Vanarsdall says he never saw the demand for good walking horses so keen in all his life. He attributes this somewhat to the oil industry. He says that the oil men have found that the only practical way to reach their leases and holdings up in Lee and other mountain counties, is on horseback and naturally they want the best means of transportation to be had, and are constantly on the outlook for good walking horses.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feed young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for cod liver oil, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.
